EDUCATION

Bachelor of Technology

Rajagiri School of Engineering and Technology

08/2017 - Present

8.56

Course

- Computer Science

Higher Secondary

International Indian School Dammam

06/2016 - 03/2017

93.2%

Course

- PCMC

Secondary

Al Khozama International School

06/2014 - 03/2015

91.2%

PROJECTS

SMILES - Simplified Molecular Input Line Entry System (2021)

- A fully automated online interactive examination platform for conducting chemistry exams online for Higher Secondary students. The platform works as a tool where the student can draw the chemical structures which are then converted to smiles and sent for evaluation using python modules. The results are then used for grading.

Drop Protect (2020)

- Implemented as a part of third year design project.

Cash In/Out (2019)

- An app that keeps track of expenses among you and your friends. Implemented using SQL and PHP as a part of second year micro project.

E-PCB (2017)

- Implemented using python as a part of first year mini-project.

INTERNSHIPS / WORKSHOPS

Embedded Systems and Robotics
